

LiteShower™ Wheelchair-accessible Portable Showers

Disabled Veterans: Do not settle for sponge bath, get a REAL shower!

Frequent showing is critical to fight **skin infection** and maintain **general hygiene**

Features and benefits:

5. Allows a person in wheelchair to take a shower bath ANYWHERE in home where warm water is reachable;
6. Eliminate costly and sometimes impractical shower remodeling;
7. Provides an effective, safe, and flexible solution to showering needs for less than 1/10 of the remodeling costs;
8. Allows for both sitting and lying positions in showering. Shower-in-Bed allows shower bath WITHOUT leaving the bed;
9. Gets water from standard indoor faucet with quick-connect adaptor;
10. Flexible, watertight, self-supporting shower tray is wheelchair-accessible and requires NO setup for use;
11. Pair of free-standing screens snaps together around the tray. Sliding curtains open and close on all four sides;
12. Automatic on-demand pump drains waste water into a sink.

shower curtain opens and closes on all four sides
